Creating a Flood Ready Community

This popular course returns for the 4th year. Planning 201 reviews the multiple sources of flood risks to Delaware communities that can be addressed and mitigated through planning, codes, and ordinances. It begins with an overview of flood risks, covers floodplain requirements for municipalities, and discusses statewide sea level rise adaptation recommendations applicable at the community level. Tools for adapting to flood risk and sources of funding and technical assistance will also be introduced.

COURSE TOPICS

- Identifying Community Flood Risks
- Assessing Vulnerability to Flooding
- Strategies for Reducing Flood Vulnerability
- Funding and Technical Assistance

This session qualifies for certificate credit in the Academy for Excellence in Local Government Leadership, and the Delaware Planning Education Program.
